

Title slides from the 2022 REU presentations:

Characterizing offshore flow
along the California Coast:
spatial and temporal patterns

By: Kaitlyn Reardon
Mentor: Shailja Gangrade
PI: Peter Franks

Exploring Patterns of Zooplankton
Diversity and Community Composition in
the California Current Ecosystem

Hannah Budroe, Dante Capone, Ramon Gallego,
Stephanie Matthews, Moira Decima

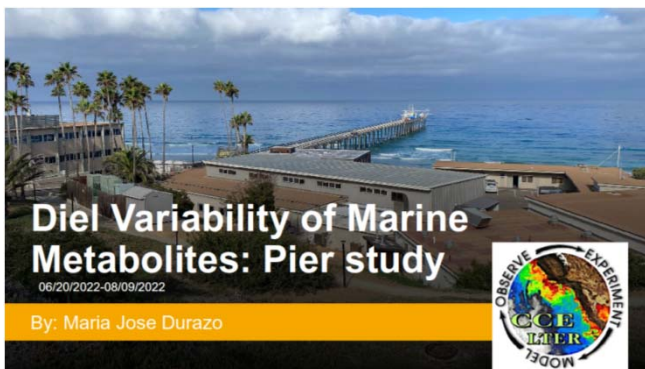

Mesozooplankton
Grazing Along a
Coastal Upwelling
Filament

Kassadi Holloway
Mark Ohman

Temperature and light
stress of Cyanobacteria
in San Diego

Summer 2022 CCE LTER REU

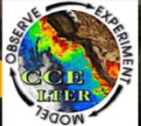

Kailey Ramsing
Palenik Lab

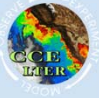

Diel Variability of Marine
Metabolites: Pier study

06/20/2022-08/09/2022

By: Maria Jose Durazo
